

**2012- 2013 CLASS DESCRIPTIONS
GRACE HOMESCHOOL CONNECTION
LOWER ELEMENTARY LEVEL CLASSES – (K – 3)***

Note: Core classes for grades K – 3 are not offered by GHC in order to facilitate and encourage the one-on-one direct instruction by the parent during these early years of learning. Lower elementary students must be attended by parents when not in class.

ART

Elementary Art

Lower Elementary (Grades K – 3)

Incorporating *Artistic Pursuits*, this 16 week elementary level art class emphasizes the fundamental principles of art through painting, collage, drawing, and sculpture. Students will gain skill in art by looking at great works of art, discussing the elements found in those works, and imitating the techniques. Throughout the course of the semester, students will complete a series of art projects, culminating in a portfolio to be displayed at the end of the semester.

Materials Fee: \$20 per semester

Instructor: Hayley Morris

1 Hour/16 Weeks

CLASSICAL MEMORY CLASS

Classical Memory Class

Lower Elementary (Grades K – 3)

“Set the seal to the wax while it’s hot.” Laying a solid foundation for future learning, this Classical Memory class provides the opportunity for students to thrive in memorization while learning about the world around them. Students will pursue six categories of memorization: history, science, grammar, math, Bible, and Latin. Throughout the course of the year, students will learn 160 points on the history timeline, key figures in science and their contributions to science, all the parts of speech, skip counting from 1 – 15 (to support foundational math studies), select Bible passages, and basic Latin terms and paradigms. This course will tap little “pegs” into the mind upon which future academic studies will expand. Students will work together in this fun foundational class to make many “memories.”

Texts and ISBN:

- Veritas Press History cards (all 5 sets at www.veritaspress.com)
 - Old Testament and Ancient Egypt – 978-1930710009
 - New Testament, Greece and Rome – 978-1930710016
 - Middle Ages, Renaissance and Reformation – 978-1930710023
 - Explorers to 1815 – 978-1930710030
 - 1815 to Present – 978-1930710047

Materials Fee: \$10

FOREIGN LANGUAGE

Beginner Latin

Lower Elementary (Grades K – 3)

Did you ever believe that there would be a Latin program that would match the energy, developmental level, and fun loving nature of primary students? *Song School Latin* is a gentle and delightful introduction to Latin. Each weekly lesson is peppered with songs, illustrations, hand-writing practice, stories and activities for easy mastery and memorization. Learn over a hundred engaging everyday Latin vocabulary words for the seasons, body parts, food, animals and common greetings. A lively musical CD is a delightful piece of the program and comes in the back in each student text. As an ideal introduction to the language, *Song School Latin* will more than prepare a student to begin a grammar school program such as Latin for Children. Come join the fun!

Materials Fee: None

Instructor: Marisa Vitulli

1 hour/32 Weeks

HISTORY

Elementary History

Lower Elementary (Grades K – 3)

Ancient Greece and Rome: Using the Greenleaf Press *Famous Men* Series as the springboard for this course, this year's study is part two of a three year elementary program based on the study of living histories. This year's study focuses upon the history of Ancient Greece and Rome through studying the exciting accounts of "real people who had real adventures." Capturing the pert stage of the early learner and the natural desire for exploration, this course will include hands-on activities and class projects that make history come alive.

Text and ISBN: Greenleaf Press' *Famous Men of Greece* - 978-1882514021

Greenleaf Press' *Famous Men of Rome* - 978-1882514038

LEGO & ROBOTICS

Robotics I

Lower Elementary (Grades K – 3)

Robotics I will focus on providing students with the basic foundations of applied physical science. The students will experiment with levers, pulleys, gears, gear ratios and basic locomotion. They will learn how to build basic robots using the LEGO Mindstorms' robotics kit. They will also learn basic programming and use it to control their robots. The goal of Robotics I is to teach the students how to apply the basics of engineering in a creative, practical manner.

Materials Fee: \$20

Instructor: Kristina Call

1 Hour/32 Weeks

Robotics II

Lower Elementary (Grades K – 3)

Prerequisite: Robotics I

Building on concepts taught in Robotics I, students will continue to explore the exciting world of the junior sciences using the hands-on approach of robotics. Students will explore the everyday mechanics of the world around them through use of physical science. By the end of the class, students will be able to build a solid foundation and structure, understand basic gear ratios and their uses and applications, identify the use of robotics in every-day life, know how to operate a pulley system, know how to build strong yet efficient robots, use of some of the basic sensors of robotics (namely: rotation and touch) and understand how to use computer programming to command their robots. Ready to put that physical science to practical use? Join Robotics II!

Materials Fee: \$20

SCIENCE

Zoology 3

Lower Elementary (Grades K - 3)

What should you do if you encounter a bear? What separates people from apes? Which mammals are poisonous? What disease do armadillos sometimes carry? Why do elephants blow dust? Which is the most dangerous animal in Africa? Why don't snakes blink? What evidence do we have that dinosaurs lived during the same time as people?

Zoology 3 students will find the answers to these questions and more in this course. This course takes students on an exciting safari to learn about many different kinds of animals that live in jungles, forests, deserts, farms, and even their own backyard. Students will gain a better understanding of how scientists classify animals. They will also begin to identify animal tracks as well as animal habitats. Additionally, students will also be exposed to some world geography as they place animals that they have studied in a location on a world map where that animal would typically be found. Students will strengthen their knowledge of these animals through at-home reading, notebooking, in-class discussions, projects, creative writing, drawing, and hands-on labs. Students will build a zoo at home. Throughout the year, students will be adding replicas of the animals that they have learned as well as creating the animal's habitat in their zoo. Fall semester, students will complete a report on a land animal of their choice and present the information to their class. Spring semester, the students will present the zoo they have been building at home.

Text: Apologia Young Explorers Series: *Exploring Creation with Zoology 3: Land Animals of the Sixth Day* and *Zoology 3 Junior Notebooking Journal*

ISBN: 978-1932012859 (Textbook); 978-1935495628 (Junior Journal)

Materials Fee: \$20

Instructor: Lyana Smith

1½ hours/32 weeks

Botany

Lower Elementary (Grades K - 3)

Do you know how to determine the age of a tree? How does a Venus flytrap keep from shutting its leaf when something other than an animal falls into its trap? Have you ever examined a seed closely to understand how a large tree can grow from such a small seed? How does pollination give evidence that the days in Genesis were 24 hours long? How can you tell how much a tree has grown by its branch?

Botany students will find the answers to these questions and more in this course. They will learn about the process of classifying plants. Then they will study how plants develop from a seed, how the reproduction process of plants works, how plants make their food, and how plants get water and nutrients and distribute those nutrients throughout the different plant structures. Additionally, students will learn about a variety of plants and how to identify plants they see around them. Students will strengthen their knowledge of botany through at-home reading, notebooking, in-class discussions, projects, drawings, and hands-on labs.

ELEMENTARY LEVEL CORE CLASSES***

FOREIGN LANGUAGE

Latin for Children, Primer A

Elem/Middle School (Grades 4 – 8)

Latin for Children is an engaging, incremental, & creative curriculum, designed to introduce students as young as third grade to Latin. The Primer A text and supplemental materials make up the first year of a three year series. Latin for Children is a modular and flexible program, with elements to engage students of every learning style. As a step beyond just an exposure to the language, it trains students in grammar, vocabulary and English derivatives in a lively, interactive way that is perfectly suited to students in the grammar stage.

GEOGRAPHY

Mapping the World

Elementary (Grades 4 – 6)

Part 1: Helping your child learn a country is not just learning the name of a far-off place but visualizing an actual location that is part of the world. With *Mapping the World by Heart*, your child will gain a complete knowledge of geography, allowing them to map the entire world from memory. Students will learn to draw detailed maps including important locations and landforms in more than 190 countries. Combining memorization with the real use of knowledge, practice, mnemonics, group activities and games, *Mapping the World by Heart* inspires students to study and love geography!

HISTORY

Transitional History

Middle – High School (Grades 6 - 9)

New to our GHC class offerings, this transitional history course provides students with a big-picture understanding and appreciation of history from Creation until modern times. During the course, students will be reading eight books that represent a general overview of history from the beginning of time to the present. Students will be analyzing the texts and the historical information found in them, as well as memorizing key events, dates, and names using the Veritas Press History Cards. This course is designed to prepare students for entrance into the Omnibus I course of study.

Texts and ISBN:

- *Adam and His Kin: The Lost History of Their Lives and Time.* Ruth Beechick. ISBN: 0940319071
- *The Boys' and Girls' Herodotus,* John S. White. ISBN: 9780966706703
- *The Pharaohs of Ancient Egypt.* Elizabeth Payne. ISBN: 0394846990

LITERATURE

Elementary Classics - A

Elementary – Middle School (Grades 4 – 6)

This course is an elementary level introduction to the classics focusing upon the elements of great literature and teaching the skills necessary to appreciate and analyze great works. During the course of the year students will read and analyze the eight classics listed below. (Books subject to change at teacher's discretion)

Texts: Classics listed below (Library loans allowed if available during weeks of course use.)

- *The Secret Garden*. Francis Hodgson Burnett. ISBN: 1613821433
- *Bambi*. Felix Salten. ISBN: 978-0671666071
- *Stuart Little*. E.B. White. ISBN: 978-0064400565
- *Amos Fortune, Free Man*. Elizabeth Yates. ISBN: 978-0140341584
- *The Sign of the Beaver*. Elizabeth George Speare. ISBN: 978-0547577111
- *Alice in Wonderland and Through the Looking Glass*. Lewis Carroll. ISBN: 978-0141321073
- *Perrault's Complete Fairy Tales*. Charles Perrault. ISBN: 978-0141306513 or 0199236836
- *The Swiss Family Robinson*. Johann David Wyss. ISBN: 978-1743449097

Materials fee: \$20

1 hour/32 weeks

Introduction to Classical Literature – B

Middle – High School (Grades 6 – 9)

Based on Adam and Missy Andrews' *Teaching the Classics – A Socratic Method for Literary Education*, this course is an introduction to the classics focusing upon the elements of great literature and teaching the skills necessary to appreciate and analyze great works. During the course of the year we will be reading and analyzing the 8 classics listed below. (Books subject to change at teacher's discretion)

Text: Classics listed below (Library loans allowed if available during weeks of course use.)

- *Treasure Island*. Robert Louis Stevenson. ISBN: 978-1593082475
- *D'Aulaires Norse Myths*. Ingri D'Aulaire and Edgar Parin D'Aulaire. ISBN: 9780385236928
- *The Prince and the Pauper*. Mark Twain. ISBN: 9781593082185
- *Frankenstein*. Mary Shelley. ISBN: 9781593081157
- *Emma*. Jane Austen. ISBN: 9781593081522
- *Oliver Twist*. Charles Dickens. ISBN: 9781593082062
- *White Fang*. Jack London. ISBN: 0099528630
- *No Fear Shakespeare, Much Ado About Nothing*. William Shakespeare. ISBN: 9781411401013

LANGUAGE ARTS

IEW – B – Aesop’s Fables Writing

Elementary/Middle School (Grades 4 – 6)

Aesop’s Fables using the **Institute for Excellence in Writing Method**

This class uses a classical approach to writing that stresses modeling and builds a firm foundation of critical thinking and study skills while focusing upon such topics as note making and outlines, summarizing from notes, narrative stories, writing from pictures, and creative writing. Students will compile personal handbooks and portfolios of completed works. Grammar and vocabulary are included in this curriculum. Using *Aesop’s Fables*, the lessons move through all nine IEW units and provide style checklists for students. This course incorporates the study of grammar using Robin Finley’s *Junior Analytical Grammar*.

Text: Student Textbooks required – provided by teacher (New IEW Students - \$65; Returning Students - \$35)

Materials Fee: \$20

Instructor: Miss Rebekah Bruce

1½ hour/32 weeks

IEW – IA (Institute for Excellence in Writing)

Middle – High School (Grades 6 – 9)

U. S. History-Based Writing Lessons, Volume 1 in Structure, Style, Grammar & Vocabulary – Explorers to the Gold Rush

(U.S. History-based source texts) Using curriculum from the Institute for Excellence in Writing, and incorporating source texts from stories, letters, literature, and other U.S. history-based documents; students will have fun as they learn to write well. They will improve their critical thinking and study skills as they learn to take notes, outline, create oral and written summaries, improve their vocabularies, analyze plot outlines, write basic reports and creative stories, and “dress-up” their writing with stylistic techniques. As students master each structural model and stylistic technique, they develop greater confidence and creativity. Consequently, they may even discover that they enjoy writing! Students will use these materials, along with their own notes and writing to compile personal handbooks and portfolios. This course incorporates the study of grammar using Robin Finley’s *Analytical Grammar*.

Texts: Student Textbooks required – provided by teacher (New IEW Students - \$70; Returning Students - \$35)

Materials Fee: \$20

Instructor: Rebekah Bruce

1½ hours/32 weeks

IEW IIA (Institute for Excellence in Writing)

Middle – High School (Grades 8 – 12)

IEW II Intermediate – U.S. History-Based Writing Lessons, Volume 2

Prerequisite: IEW I

Meant to follow U.S. History-Based Writing Lessons, Volume 1, this advanced set of 35+ lessons moves quickly into sophisticated research, documentation, note-taking from lectures, advanced essays (basic, persuasive and super), critiques of literature, and thesis papers. Appropriate for grades 6-12, the writing assignments include topics such as slavery, inventions, industrialization, WWI, communism, the Great Depression, WWII, civil rights, and more. *This course incorporates the study of grammar using Robin Finley’s Analytical Grammar.*

Text: Student Textbooks required – provided by teacher (New IEW Students - \$70; Returning Students - \$35)

Materials Fee: \$20

Instructor: Peggy Bruce

1½ hours/32 weeks

*Class availability dependent upon sufficient enrollment

SCIENCE

Zoology 3

Lower Elementary (Grades 4 – 6)

What should you do if you encounter a bear? What separates people from apes? Which mammals are poisonous? What disease do armadillos sometimes carry? Why do elephants blow dust? Which is the most dangerous animal in Africa? Why don't snakes blink? What evidence do we have that dinosaurs lived during the same time as people?

Zoology 3 students will find the answers to these questions and more in this course. This course takes students on an exciting safari to learn about many different kinds of animals that live in jungles, forests, deserts, farms, and even their own backyard. Students will gain a better understanding of how scientists classify animals. They will also begin to identify animal tracks as well as animal habitats. 1 Hour/16 Weeks

Elementary Art

Lower Elementary (Grades K – 3)

Incorporating *Artistic Pursuits*, this 16 week elementary level art class emphasizes the fundamental principles of art through painting, collage, drawing, and sculpture. Students will gain skill in art by looking at great works of art, discussing the elements found in those works, and imitating the techniques. Throughout the course of the semester, students will complete a series of art projects, culminating in a portfolio to be displayed at the end of the semester.

Materials Fee: \$20 per semester

Instructor: Hayley Morris

1 Hour/16 Weeks

COOKING/ETIQUETTE/SEWING/GARDENING

Cooking/Etiquette/Sewing/Gardening

Elementary (Grades 4 – 8)

This Home Economics course is designed for girls in grades 4 – 6. Divided into four 8 week segments, this course will cover basic home economics skills. Students will learn about cooking and nutrition, etiquette and manners, basic sewing skills, and gardening. This will be a hands-on class that will teach students valuable domestic skills for present and future use.

1½ Hours/32 Weeks

Robotics II

Elementary – Middle School (Grades 4 – 6)

Prerequisite: Robotics I

Robotics II delves deeper into the world of physical and applied science using robotics. Students will continue to explore the everyday mechanics of the world around them through use of physical science. Students will also identify and then construct some of the basic robotic mechanisms of everyday life. During the course of the year, students will complete projects, such as a tank, clutch assembly, segway, and others. By the end of the class, students will be able to build solid, mission-performing robots without the use of instructions, build efficient robots using their knowledge of structure, gear ratios, design, efficiency, etc., use of all of the sensors of robotics, including touch, sound, light, and distance. Students will learn how to use advanced robotic programming to operate the robots that they create and accomplish specific missions. Ready to delve deeper into the exciting world of science and robotics? Join Robotics II!

Materials Fee: \$20

Instructor: Daniel Call

1½ Hours/32 Weeks

SPEECH & LOGIC

Speech and Logic

Upper Elementary – Middle (Grades 4 - 6)

Logic class will focus on teaching students how to think critically and logically. In addition, students will learn how to identify and address logical fallacies. During the course of the year, students will practice logical thought and logical conversation while they learn how to approach an issue from both sides and determine what is fact and what is fiction, what is truth and what is falsehood. This class will sharpen students' minds as they develop the art of conversation and thinking.

PRIVATE MUSIC LESSONS

Individual Private Guitar Lessons

Elementary – High School

For beginners or intermediate students

Private lessons are available on a first come, first served basis, offered on Thursdays.

Lesson

Text:

(To be determined according to age and ability – Instructor will sell books to students at cost)

- *Children's Guitar Method 1* (will be followed by Book 2 and possibly book 3 in later semesters)
- *Deluxe Gospel Guitar Method 1*
- *Modern Guitar Method, Book 1*
- *Music Theory for the Guitar*
- *Guitar Songbook or Hymnal*

Lesson Fee: \$25 per week per half-hour lesson, payable either at each lesson or monthly

Instructor: TBA half-hour weekly/ongoing

Private Voice Lessons

Elementary

Instructor: Robin Campbell

For Private lessons email: rdx5@aol.com; phone: 561-352-6393

Voice 101: Beginners

Elementary – High School (Grades 4 – 12)

Voice may be taught as a private lesson or as a group lesson.

For Group Lessons: This class will equip the young singer with basic principles of singing; such as breathing, tone production and how to listen to a song, looking at the music and learning to follow the notes that correspond to the words of that song. Each student will be able to sing with a partner, either the same part as the partner or a counter melody. We will primarily use hymns and some folk songs, and possibly some simple choral pieces. Music will be provided for the students.

Instructor: Robin Campbell

1 hour/16 weeks

For Private lessons email: rdx5@aol.com; phone: 561-352-6393

Private Piano Lessons

Elementary

Elementary – High School (Grades 4 – 12)

Instructor: Carla Hansen

For Private lessons email: CarlaH@gibcjupiter.org; phone: 561-746-4617

Please NOTE:

For all Private Lessons:

- 1. Please contact the teacher for times and more specifics.**
- 2. Grace Homeschool Connection does not collect private lesson fees.**
- 3. All Guitar, Piano and Voice music instruction materials will be ordered and provided by the Instructor. The cost for these fees will be added to lesson fees.**

*Class availability dependent upon sufficient enrollment
